PRODUCT SPECIFICATION & TECHNICAL DATA

CS24 - Cooling Multiway

Scarf

Collection: Cooling Accessories

Range: Cooling Range

Shell Fabric: 92% Polyester 8%

Elastane 180g

Product information

Wicking, cooling and drying capabilitiesSoak in water to activateKeeps wearer cool for up to 8 hoursStretchy polyester elastane fabric allows for it to transform for a number of different usesLightweight for greater comfort and flexibility

Cooling Accessories

Portwest evaporative cooling products are constructed from an innovative PVA multi layered fabric which uses a unique polymer chemistry. Simply activate by soaking in water creating a chemical reaction within the fabric which enables the garments to act like a sponge; retaining water, keeping the body cool in hot weather conditions.

Cooling Range

This innovative range offers a comprehensive selection of products to help minimize the risk of heat stress and UV rays. Outdoor workers in construction, agriculture, mining, oil and gas and other industries frequently find themselves working in temperatures up to and over 100°F (40°C). This Cooling range is ideal for use in these conditions.

- 4-way stretch fabric for ease of movement and added comfort
- This product is highly versatile and can be worn in a number of different ways
- Soak in water to activate
- Keeps wearer cool for up to 8 hours
- Lightweight and comfortable
